Good Advice for People Over 60!

By Arnaldo Liechtenstein, Physician

Whenever I teach clinical medicine to students in the fourth year of medicine, I ask the following question: What are the causes of mental confusion in the elderly? Some offer: "Tumors in the head". I answer: No! Others suggest: "Early symptoms of Alzheimer's". I answer again: No! With each rejection of their answers, their responses dry up. And they are even more open-mouthed when I list the three most common causes:

- uncontrolled diabetes
- urinary infection
- dehydration

It may sound like a joke, but it isn't. People over 60 generally stop feeling thirsty and consequently stop drinking fluids. When no one is around to remind them to drink fluids, they quickly dehydrate. Dehydration is severe and affects the entire body. It may cause abrupt mental confusion, a drop in blood pressure, increased heart palpitations, angina (chest pain), coma and even death. This habit of forgetting to drink fluids begins at age 60, when we have just over 50% of the water we should have in our bodies. People over 60 have a lower water reserve. This is part of the natural aging process. But there are more complications. Although they are dehydrated, they don't feel like drinking water, because their internal balance mechanisms don't work very well.

Conclusion: People over 60 years old dehydrate easily, not only because they have a smaller water supply, but also because they do not feel the lack of water in the body. Although people over 60 may look healthy, the performance of reactions and chemical functions can damage their entire body. So here are two alerts:

1) Get into the habit of drinking liquids. Liquids include water, juices, teas, coconut water, milk, soups, and water-rich fruits, such as watermelon, melon, peaches and pineapple; orange and tangerine also work.

*The important thing is that, every two hours, you must drink some liquid.

2) Alert for family members: constantly offer fluids to people over 60. At the same time, observe them. If you realize that they are rejecting liquids and, from one day to the next, they are irritable, breathless or display a lack of attention, these are almost certainly recurrent symptoms of dehydration.

Varsity Quiz Play-Off Schedule

Update From: Kristin Grimm [CPD Student Activities]

The Blue League championship and All-Star matches took place Friday January 21st. A-TECH defeated Arbor View to take the Blue League championship.

The Silver League Championship Series will start on February 4 with an extended afternoon of recording (2 pm to 5:30 pm). We had a very exciting 3-way tie in the silver league, so the matches should be quick and competitive!

Varsity Quiz Silver League matches:

Feb 4th Quarter Finals:

- 2 pm Q1: Foothill vs Meadows
- 3 pm Q2: Liberty vs Palo Verde
- 3:45 pm Q3: Coronado vs Shadow Ridge
- 4:30 pm Q4: Green Valley vs Clark

Feb 11th Semi Finals

- 3 pm: Q1 Meadows vs Q3 Coronado
- 4 pm: Q2 Liberty vs Q4 Clark

Feb 25th:

- 3 pm: VQ Silver final
- 4 pm: Silver All Star

With the current mandate in place, all attendees BE PREPARED to show proof of full vaccination or a negative COVID-19 test within 72 hours prior to attending the conference. In addition currently, MASKS are required for all indoor events, regardless of vaccination status. All attendees at the conference must sign and bring to the convention a waiver of [COVID-19 claims](#).

Division 28 Update

from Mariza Div. 28 Secretary

At our January DCM, we agreed to support Southwest Las Vegas Kiwanis's Homeless Support Collection Project. We ask that you collect or donate supplies and bring them to our next DCM Saturday, March 12th hosted by Green Valley Kiwanis in Henderson, NV. I believe we will be keeping with the normal time schedule: 9:30am President's meeting, 10am general for DCM.

Questions about this project can be directed to President Krit, sempolkrung@gmail.com . or Secretary Michelle, brighteyesoptometry@gmail.com. Our DCM raffle proceeds for the March DCM will also be donated to this service project.

Interclub Henderson Social:

Clued-Up on Sat Feb 26th

from Mariza Div. 28 Secretary

I found this on Facebook. Both President Liliana (Mountain's Edge Eco) and Lee/I have both bought team tickets. Each team ticket is good for up to 6 players. I did one of these last year with Lee, Ryan and myself in Downtown Las Vegas and it was a lot of fun. You basically run around a certain geographical location and find clues to solve a murder mystery. (It's done via an app with geo-locating for the clues) Even during COVID, we saw tons of costumed teams running around playing the game. We can plan a competing team's lunch or afternoon social somewhere in the game vicinity on that day for a meet-up. Here is the link:

**Service Leadership Program
Advisor Background Checks**

Dear Kiwanians,

While the Kiwanis International requirement for background checks for those working with youth and our Service Leadership Programs (SLP) has not changed, the impact on non-compliant individuals and clubs has changed.

In an effort to seek compliance with KI's Youth Protection Guidelines, Kiwanis International has taken the step of notifying schools when an advisor's background check has expired, thereby disallowing the advisor's campus privileges. (See KI letters from earlier this year: [strengthened Youth Protection policies letter](#) and [sample non-approved advisor letter](#).)

Additionally, if the SLP club is showing no advisors with approved background checks, Kiwanis International is removing the sponsoring club from the SLP roster.

It is of utmost importance to have background checks completed and paid, or update your records with advisors who have current background checks. [Click here for a current list of those advisors who require updated background checks](#). Advisors need to log into the [member portal](#) (Kiwanis Connect) and initiate the background check process under "background check." Or contact the club secretary for a member-specific email link sent from the secretary dashboard. Contact Kiwanis International at backgroundchecks@kiwanis.org for a member-specific email link.

Stroke has a new indicator

They say if you email this to ten people, you stand a chance of saving one life. Blood Clots/Stroke –
They Now Have a Fourth Indicator, the Tongue

STROKE: Remember the 1st Three Letters.... **S. T. R.**

During a BBQ, a woman stumbled and took a little fall - she assured everyone that she was fine (they offered to call paramedics) ...she said she had just tripped over a brick because of her new shoes.

They got her cleaned up and got her a new plate of food. While she appeared a bit shaken up, Jane went about enjoying herself the rest of the evening. Jane's husband called later telling everyone that his wife had been taken to the hospital - (at 6:00 PM Jane passed away) She had suffered a stroke at the BBQ. Had they known how to identify the signs of a stroke, perhaps Jane would be with us today. Some don't die. They end up in a helpless, hopeless condition instead.

STROKE IDENTIFICATION:

A neurologist says that if he can get to a stroke victim within 3 hours, he can totally reverse the effects of a stroke...totally. He said the trick was getting a stroke recognized, diagnosed, and then getting the patient medically cared for within 3 hours, which is tough.

RECOGNIZING A STROKE

Remember the '3' steps, STR.

Sometimes symptoms of a stroke are difficult to identify. Unfortunately, the lack of awareness spells disaster. The stroke

victim may suffer severe brain damage when people nearby fail to recognize the symptoms of a stroke.

Now doctors say a bystander can recognize a stroke by asking three simple questions:

S *Ask the individual to SMILE.

T *Ask the person to TALK and SPEAK A SIMPLE SENTENCE (Coherently)

(i.e., Chicken Soup)

R*Ask him or her to RAISE BOTH ARMS.

If he or she has trouble with ANY ONE of these tasks, call emergency number immediately and describe the symptoms to the dispatcher.

New Sign of a Stroke -----

Stick out Your Tongue!

NOTE: Another 'sign' of a stroke is this: Ask the person to 'stick' out his tongue. If the tongue is 'crooked', if it goes to one side or the other that is also an indication of a stroke.

A cardiologist says if everyone who gets this e-mail sends it to 10 people; you can bet that at least one life will be saved.
